

## PECMH Equipment, renovations & capital planning funded by PECM Hospital Foundation

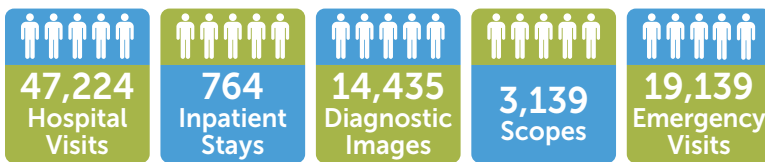

\*Quinte Health Care provides office space, computers, IT support and telephones services at no cost to PECMHF.

Fiscal year end March 31, 2017

## 2015 HOSPITAL STATISTICS

## KEY ACHIEVEMENTS IN 2016-2017

### We Need a New Hospital

Community health care partners joined forces to prepare a proposal to the Ontario Ministry of Health and Long-Term Care to have a new hospital built in Prince Edward County. The government has approved the first stage in the process...and now it's on to the next step.

The Hospital Foundation commissioned a Fundraising Feasibility Study focusing on our community's ability to contribute our share of the capital cost of the new hospital. The results confirmed the community agrees – we need a new County hospital and we can do it!

### Congratulations Prince Edward County!

We – the Hospital Foundation, not government – raise the funds needed to purchase priority medical equipment for PECM Hospital. In 2016-17 our Life Saver II campaign focused on new colonoscopes and gastroscopes for diagnostic care, and to update equipment in PECMH's pharmacy. With your generous support, WE DID IT!

We also raised over half of our \$170,000 commitment for critical upgrades to the regional MRI machine at Belleville. The goal is based on how much the MRI is used for County patients.

**THANK YOU** to every volunteer and donor who helped us reach these goals to keep our hospital strong!
